

## A kitchen hood to measure your ...

Granby, November 2012 – Aroua Tek inc. reinvents the choice of premium range hoods. Whether it is a decorative or insert range hood, now customers can configure their hood giving free rein to their creativity and their ventilation needs. The configuration process is supported by the online tool "MY CONFIGURATION" available at [www.arouatek.com](http://www.arouatek.com).

### Custom dimensions

A hood is primarily a kitchen decorative furniture; for that reason, Aroua Tek inc. offers a choice of widths up to 68 inches (172 cm) in various styles. There will certainly be the look and dimensions that "fit" your new or renovated kitchen project.

**Meeting the primary need is our concern**

Under the slogan "remove odors from your space," Aroua Tek inc. offers to the customers the opportunity to choose the appropriate ventilation system. This setting comprises the following options:

- The configuration of the internal engine hood, integrated motor to the discharge line or as external motor,
- The configuration of one or two motors to optimize the energy efficiency of the hood while covering up the hob,
- Motor(s) from a wide range motors' powers to cover extraction capacity from 350 cfm to 1800 cfm.

**Functionality and quality of finish are always our priority**

Aroua Tek inc. developed range hoods made of premium stainless steel, having seamless corners and surface structures and electronic controls. With all these various features offered, hoods **Aroua** have a distinctive air.
